

MITCHELL (MITCH) G. CROWE (P.E.)
PROJECT MANAGER - MECHANICAL ENGINEERING

Washington State University
Bachelor of Science, Mechanical Engineering

BACKGROUND

Mitch Crowe has 24 years of management, construction, engineering and design experience. His background covers HVAC, plumbing, process piping, controls, material handling and process steam design. His experience includes actual fabrication and installation of HVAC, plumbing, process piping, controls, and boiler systems. Mr. Crowe performs air balancing, commissioning and construction management of all types of mechanical systems

EXPERIENCE

-MAJOR ACCOMPLISHMENTS-

- EX-Director of Engineering for Meier Associates in charge of 42 engineers and CAD operators.
- Lead engineer and field superintendent for Blue Sage Corporation in providing maintenance for Chevron Chemical Company. Managed 78 people. Awarded Outstanding Merit.
- Lead project estimator for the 9.95 million dollar HVAC for Madigan Hospital. Estimate was 3rd out of 8.
- Numerous Cost/Benefit and Life Cycle Economic Analysis Studies comparing different HVAC Systems.

-PROJECTS-

- Over 350 projects.

-PROFESSIONAL AFFILIATIONS-

- Professional Engineer, Washington
- Professional Engineer, Oregon
- Professional Engineer, Idaho
- Professional Engineer, Nevada
- Professional Engineer, Arkansas
- Professional Engineer, Illinois
- Professional Engineer, Wisconsin
- ASHRAE member.
